

**Crew's Expert Witness team provide independent reports and testimony in drugs cases for the Scottish Court System.**

**In this way we reduce harm to individuals and society by providing information for Sheriffs and juries to be able to make informed decisions on cases relating to drugs offences.**

**Visit our website find out more about our Expert Witness services.**

**crew.scot**

**Our experts have been commended on their unbiased and inclusive reports which have prevented people from receiving unjust jail sentences and assisted lawyers to confer with clients and make sensible pleas when we have agreed with the charges.**

**The Experts often agree with the charges but may have more information of drug use which the courts can take into account, thereby, saving society money for court cases, prison sentences and the damage which may be caused by people going to jail and perhaps also developing a drug dependency or going onto more damaging drug use whilst incarcerated.**
