

HOW TO TEST YOUR DRUGS WITH WEDINOS

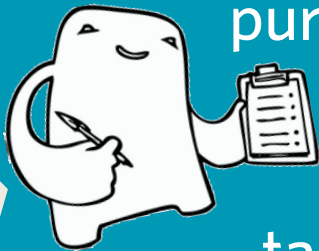

1

Print (from www.WEDINOS.org), or pick up from Crew's Drop-in, a WEDINOS "Sample and Effects" form.

2

Fill out the form, providing details of the drug that was purchased and how it felt (if it was taken).

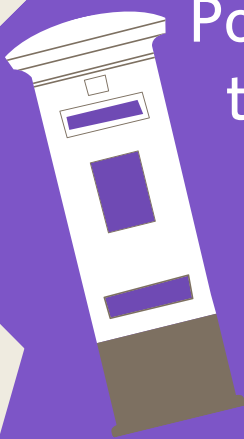

3

Place the sample secured in a plastic bag or leak proof container, with the form, in an envelope for posting.

4

Post the sample to WEDINOS to be lab-tested.

You can never be completely safe when taking drugs. However, checking to make sure you have what you think you have can significantly reduce the harm if you plan to take them anyway!

5

Check online in a few days to see if your sample results have been shared.
